

Argos Risk to present at BankTEL's User Conference

"Manage your Vendor Health and Risk"

MINNEAPOLIS, MN – September 10, 2019 - Argos Risk®, an industry leader of Third-Party Risk Intelligence (TPRI) solutions, today announced Kevin Sasser will present "Manage your Vendor Health and Risk" at the 2019 "BankTEL Unfiltered User Conference" September 19th. BankTEL, an industry leader in compliant financial accounting software solutions, will hold its annual conference in New Orleans, Louisiana September 17th-19th.

"We work closely with our Affiliate partners and are excited for the opportunity to speak and exhibit at the BankTEL conference. It is an exceptional conference which allows us to join our Affiliate partner, promote our partnership, and address how we can help solve the clients' challenge of third-party vendor risk," said Sasser, Argos Risk's Director of Sales and Marketing.

The New Orleans' French Quarter provides a great location for professional development and networking opportunities with colleagues, BankTEL team members, and industry experts on fraud, vendor management, and compliance.

Our session will focus on best practices and current examples of why financial viability is the cornerstone of an effective third-party vendor assessment. We will also share how easily financial viability scores can be incorporated into a third-party vendor risk management strategy to improve your operation.

Argos Risk works with hundreds of financial institutions in implementing best practices related to continuous third-party vendor risk mitigation programs. "We are honored to present with other innovative financial industry professionals and look forward to discussing how we can help tackle today's evolving risk challenges," said Lori Frank, President and CEO of Argos Risk.
